

# The Valley Church

Our Launch is less than two months away. Check out our summer update below

Summer, 2015

## Portable Church Needs

- \$1,975 Pipe and Drape- This allows us to close in our rented room for a more intimate atmosphere
- \$1,100 Sound Board- This board is digital which makes portability much easier.
- \$1,500 Truss- We need a 10x10 truss system to connect our donated video screen to.
- \$800 Signs- We are in the process of ordering signage for our portable church.

## Update

We are pleased to let you know that everything is going WONDERFULLY with our church. We moved our family to Cincinnati on June 1<sup>st</sup> and began meeting weekly on Sunday nights with our launch team. We've seen new families join our team and a great amount of momentum has formed with our ministry. We have a few big events coming up in August (a movie night for our 1,000 apartment tenants, 2 preview services, a 5,000 home canvassing event) and we are stoked about the relationships we plan to form.

We're thankful for the state fellowship and their support of us. Your support has given us a salary to live on! It's nice to pay our bills. On the flip side, we've gone through the nearly \$5,000 we had set aside for portable church equipment. We purchased a trailer, a semi-full sound package (all used) and outdoor event merchandise (table, pop-up canopy, etc). With that said, we are about \$5,400 away from having all of the equipment we need. Please consider a special project gift to our church from yours.

## Launch Date

Almost two years ago we set September 20<sup>th</sup> of 2015 as our Sunday morning launch service date. I'm happy to announce that we are on schedule! We plan to video our services and can't wait to send you a copy! Please add our church to your prayer list.
